REGULATORY DIVISION

Refer to: P/N #2006-3w-019-C (Revised)
Raymond D. Matheney

8 DECEMBER 2006

The project was originally advertised on July 21, 2006, as a one-time maintenance dredging of approximately 2000 cubic yards of material from a private docking facility located at Lot 99, 4206 Gray Heron Drive, Barefoot Resort, North Myrtle Beach, Horry County, South Carolina 29582. The applicant has requested that the project be revised to reflect a change in the disposal site. The contractor has proposed that a temporary sheet pile cofferdam be constructed adjacent to the existing bulkhead. The dredged material will be placed into the temporary basin and allowed to de-water into the Atlantic Intracoastal Waterway. The location of this temporary storage site is on a sand flat in the AIWW, which supports no vegetation. As soon as the material has dried sufficiently, it will be placed in a truck and hauled to a permanent disposal site owned by Mr. William S. Strickland (see attached revised drawing labeled Sheet 3R of 4). The cofferdam will then be removed and the site restored to pre-project contour and conditions.

The deadline for responding to the project revision is

12 O'CLOCK NOON, TUESDAY, 26 DECEMBER 2006

If there are any questions concerning this revision to public notice, please contact Jay M. Thomas at 843-365-4239.
